

(PILOT NAV) (PIKES2.DEN)
PIKES TWO DEPARTURE

DEPARTURE ROUTE DESCRIPTION

Fly assigned heading for radar vectors to assigned transition. Maintain 10,000 feet or assigned lower altitude. Expect filed altitude 10 minutes after departure.

LOST COMMUNICATIONS: If no transmissions are received within one minute after departure, maintain assigned heading until 7000 feet, then climb to filed altitude via direct DEN VOR/DME; thence via assigned transition. If filed altitude is above 10,000 feet, cross DEN VOR/DME at or above 11,000 feet.

ALAMOSA (HI) TRANSITION (PIKES2.ALS): From over DEN VOR/DME via DEN R-194 and ALS R-002 to ALS VORTAC.

PUEBLO TRANSITION (PIKES2.PUB): From over DEN VOR/DME via DEN R-156 and PUB R-349 to PUB VORTAC.
